PROFESSIONAL SUMMARY

Computer Science graduate with hands-on project experience developing an offline-first Android Point-of-Sale and inventory management application using Kotlin, Jetpack Compose, Room, and SQLite. Familiar with local persistence, migrations, barcode scanning, device integrations, and Android tools. Also brings professional IT support experience in troubleshooting, equipment configuration, and user assistance.

TECHNICAL SKILLS

Android & UI: Kotlin, Jetpack Compose, Material 3, AndroidX Lifecycle, ViewModel

Data & background: Room, SQLite, migrations, app-private storage, Room FTS, WorkManager

Device & integrations: CameraX, ML Kit, Photo Picker, ExifInterface, Open Food Facts, Gemini API client

Build & testing: JDK 17, Gradle, KSP, Android SDK 34, JUnit, Android Lint

FLAGSHIP TECHNICAL PROJECT

SariSariPOS — Offline-First POS and Inventory Management 2026

Android application | Kotlin, Jetpack Compose, Room, SQLite | Source: github.com/kristerlloyd23-netizen/SariSariPOS

- Implemented POS, inventory, customer-credit, reporting, local backup, and assistant-related components in a source-reviewed Android project.
- Configured Room/SQLite persistence through schema version 3, explicit migrations, app-private product images, and attribution records.
- Integrated CameraX and ML Kit barcode workflows, Open Food Facts lookup, Room FTS retrieval, and optional Gemini/private HTTPS generation in source.
- Included five JUnit tests for break-bulk logic; broader runtime and integration verification remains a documented next step.

PROFESSIONAL EXPERIENCE

IT Support – Administrative Support Feb 2025 – Mar 2026

Educational Resources and Interactive Events Services, Inc. (NCERIES)

- Installed, configured, and tested 3D dome projection equipment at school sites.
- Assisted school personnel with setup and basic troubleshooting during educational activities.
- Prepared and maintained audiovisual equipment for interactive learning experiences.

IT Support Intern Jan 2025 – Apr 2025

Grace Medical General Center – IT Department

- Assisted with basic hardware, software, and workstation troubleshooting.
- Helped users resolve common computer-related problems and provided technical guidance.
- Supported network connectivity checks and routine IT maintenance.

EDUCATION

Bachelor of Science in Computer Science — Immaculada Concepcion College | Graduated July 2025

CERTIFICATIONS AND TRAINING

Contact Center Services NC II — TESDA Training Institute / Mindbank Training | 2023

Data Analyst General Course — Refocus Digital Academy | February 2022 – February 2023
